

THE POST

College: [University of Exeter Medical School](#)

Post: **Senior Lecturers in neuroscience or immunology or pharmacology**

Grade: **G**

Reporting to: **Pro Vice Chancellor (PVC) or nominee**

The above full time/ part time posts are available at the University of Exeter Medical School, based at our Exeter Campuses.

The University of Exeter Medical School is one of the fastest growing medical schools in the UK/Europe/World. We are seeking academic staff with the ambition to match ours. We are growing our team and invite applications from talented researchers with specific experience in **Neuroscience, or Immunology or Pharmacology**.

The Institute of Biomedical and Clinical Science <http://medicine.exeter.ac.uk/research/biomedicalclinical/> and the Living Systems Institute <http://www.exeter.ac.uk/livingsystems/> house our basic science research and systems based approaches to disease. Our research seeks to understand the basic science underpinning disease and to identify potential therapeutic targets. The Institutes form communities of researchers with complementary skills which facilitates interdisciplinary collaborations.

Join Exeter and you'll join a team whose research quality is ranked in the top 30 world-wide while establishing a tenured career located in a beautiful part of the country.

Summary of position available

Senior Lecturer

Main purpose of the job:

To fulfil research, teaching and administration duties as a senior lecturer in one/more of the area outlined in the job advertisement.

To contribute to the general operation of the College as a member of its academic team.

Research

To contribute to enhancing the quality and quantity of research at Exeter in an area related or complementary to existing research strengths.

To conduct independent research and act as principal investigator and project leader, and in so doing:

- Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and
- Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships.

To supervise research projects, managing any dedicated research staff and postgraduate research students.

To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.

To contribute to the further and ongoing development of the research in one/more of the area outlined in the job advertisement.

Teaching

To develop and deliver undergraduate courses to appropriate academic standards such that:

- Knowledge acquired from research translates to teaching
- Accreditation by professional bodies is obtained where appropriate
- Students are challenged but also tutored and supported with individual care
- Teaching and learning techniques are innovative and inspiring
- Students are supervised appropriately
- Assessment criteria are appropriate, and fairly applied with results fed back to students appropriately
- Module content is continuously reviewed to identify areas for improvement

General

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

- Developing overall academic content and structure of modules with colleagues
- Developing ideas for generating income
- Supporting admissions processes and procedures
- Supporting examinations processes and procedures
- Contributing to the work of College committees
- Contributing to accreditation and quality control processes

Person Specification for Senior Lecturer

The successful applicant will have an independent, internationally-recognised research programme in an active field of research related or complementary to existing Exeter strengths. They will be able to demonstrate the following qualities and characteristics:

- A PhD or equivalent qualification in the subject or a closely related discipline
- A strong record in attracting research funding,
- Teamwork skills to work in collaboration with existing group members
- An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally
- The attitude and ability to engage in continuous professional development
- The aptitude to develop familiarity with a variety of strategies to promote and assess learning
- Enthusiasm for delivering undergraduate and postgraduate programmes
- A strong record of research publications of appropriate quality and quantity

- Proven academic leadership skills
- Be an externally recognised authority in the broader subject area
