

THE POST

College/Service: College of Life and Environmental Sciences/ Sport and Health Sciences/

Post: Lecturer (Education and Research) in Sport and Exercise Psychology

Reference No: S46549

Grade: F

HERA: LEC

Reporting to: Head of Sport and Health Sciences

The above full time post is available from August 2019 on a permanent basis in the College of Life and Environmental Sciences.

Job Description

This post is primarily to support research and teaching activities for Sport and Health Sciences specifically in the area of sport and exercise psychology. The post holder will have an independent research programme that will strengthen and complement the existing Sport and Exercise Psychology team at the University. We would welcome applicants with expertise across the spectrum in sport and exercise psychology, but also in cognitive psychology, motor control, or neuroscience.

Main duties and accountabilities

1. To fulfil research, teaching and administration duties as a lecturer in Sport and Exercise Psychology.
2. To extend the research profile of Sport and Health Sciences in an area related or complementary to existing research strengths of the sport and exercise psychology team at the University; attracting and supervising postdoctoral researchers and postgraduate research students. Sport and Health Sciences research at Exeter
3. To collaborate with colleagues both within the College and the University of Exeter as a whole in order to develop and support the Sport and Health Sciences research programmes.
4. To contribute to the general operation of the College as a member of its academic team.

Research

1. To conduct independent research and act as principal investigator and project leader, and in so doing:

Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and

Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships, especially those with business and industry.

2. To supervise research projects, managing any dedicated research staff and postgraduate research students, and provide the mentorship to enable staff and students to develop their skills and academic careers.
3. To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.
4. To contribute to the further and ongoing development of Sport and Health Sciences research at Exeter, especially the area of Sport and Exercise Psychology.

Teaching

To deliver mainly undergraduate courses to appropriate academic standards such that:

1. Knowledge acquired from research translates to teaching
2. Students are challenged but also tutored and supported with individual care
3. Teaching and learning techniques are innovative and inspiring
4. Students are supervised appropriately
5. Assessment criteria are appropriate, and fairly applied with results fed back to students appropriately
6. Module content is continuously reviewed to identify areas for improvement

General

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

1. Developing overall academic content and structure of modules with colleagues
2. Developing ideas for generating income and promoting both the College in general and Sport and Health Sciences in particular the sport and exercise psychology area
3. Supporting admissions processes and procedures
4. Supporting examinations processes and procedures
5. Contributing to the work of College committees
6. Contributing to accreditation and quality control processes
7. Contributing to strategic planning

This job description summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility.

Person Specification

The successful applicant will have an independent research programme in an active field of sport and exercise psychology research related or complementary to existing Exeter strengths. He/she will possess a PhD in sport and exercise sciences or a related area and be able to demonstrate the following qualities and characteristics:

1. PhD (Optional or nearing completion) or equivalent in Psychology

2. Sufficient knowledge of Sport and Exercise Psychology to develop teaching and research programmes
3. A strong record in attracting research funding, or demonstrable potential to attract such funding.
4. Teamwork skills to work in collaboration with existing group members
5. An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally with other educational bodies, professional institutions, business and industry
6. The attitude and ability to engage in continuous professional development
7. The aptitude to develop familiarity with a variety of strategies to promote and assess learning
8. Enthusiasm for delivering undergraduate and postgraduate programmes

Post: Psychology	Senior Lecturer (Education and Research) in Sport and Exercise
Reference No:	S46549
Grade:	Grade G
HERA:	SLEC
Reporting To:	Head of Sport and Health Sciences

The above full-time post is available from 1st August 2019 on a permanent basis in the College of Life and Environmental Sciences

Job Description

This post is primarily to support research and teaching activities for Sport and Health Sciences, specifically in the area of sport and exercise psychology. The post holder will have an independent research programme that will strengthen and complement the existing Sport and Exercise Psychology team at the University. We would welcome applicants with expertise across the spectrum in sport and exercise psychology, but also in cognitive psychology, motor control, or neuroscience. The full job description (role profile) for Senior Lecturer (Education and Research) posts can be found on our website at http://admin.exeter.ac.uk/personnel/academic_paths/academic_paths_tandr.shtml. This summarises the main duties and accountabilities of the post and is not comprehensive: the post-holder may be required to undertake other duties of similar level and responsibility.

Main purpose of the job:

To fulfil research, teaching and administration duties as a senior lecturer in Sport and Exercise Psychology.

To contribute to extending the research profile of Sport and Health Sciences and specifically sport and exercise psychology.

To contribute to the general operation of the College as a member of its academic team.

Research

To contribute to enhancing the quality and quantity of Sport and Health Sciences research at Exeter in an area related or complementary to existing research strengths in sport and exercise psychology.

To conduct independent research and act as principal investigator and project leader, and in so doing:

- Enhance the College's international reputation through research publications of appropriate quantity and quality, and contribute to worldwide debate at national and international conferences, and

- Win research earnings through carefully prepared and successful grant applications as well as identifying potential income-generating programmes and collaborative partnerships, especially those with business and industry.

To supervise research projects, managing any dedicated research staff and postgraduate research students.

To help promote a collegiate working atmosphere and stimulating environment that will attract further research staff of the highest quality as well as good postgraduate research students.

To contribute to the further and ongoing development of Sport and Health Sciences research at Exeter.

Teaching

To develop and deliver undergraduate and postgraduate courses to appropriate academic standards such that:

- Knowledge acquired from research translates to teaching
- Accreditation by professional bodies is obtained where appropriate
- Students are challenged but also tutored and supported with individual care
- Teaching and learning techniques are innovative and inspiring
- Students are supervised appropriately
- Assessment criteria are appropriate, and fairly applied with results fed back to students appropriately
- Module content is continuously reviewed to identify areas for improvement

General

To contribute to the overall general and academic management in the College by undertaking activities that may be required such as:

- Developing overall academic content and structure of modules with colleagues
- Developing ideas for generating income
- Supporting admissions processes and procedures
- Supporting examinations processes and procedures
- Contributing to the work of College committees
- Contributing to accreditation and quality control processes

Person Specification for Senior Lecturer

The successful applicant will have an independent, internationally-recognised research programme in an active field of sport and exercise psychology research related or complementary to existing Exeter strengths. He/she will be able to demonstrate the following qualities and characteristics:

- A PhD or equivalent qualification/experience in the subject or a closely related discipline
- A strong record in attracting research funding, or demonstrable potential to attract such funding
- Teamwork skills to work in collaboration with existing group members
- An active and supportive approach to inter-disciplinary and multi-disciplinary research that will help to foster interactions and links both within the University and externally with business and industry
- The attitude and ability to engage in continuous professional development
- The aptitude to develop familiarity with a variety of strategies to promote and assess learning
- Enthusiasm for delivering undergraduate and postgraduate programmes
- Proven academic leadership skills
- Be an externally recognised authority in the broader subject area.

Informal Enquiries

Before submitting an application you may wish to discuss the post further by contacting Associate Professor Jo Bowtell, telephone (01392 722869) or email j.bowtell@exeter.ac.uk (or Prof Mark Wilson, 01392 722891, mark.wilson@ex.ac.uk).
